City Council
City of San Jose
200 East Santa Clara Street
San Jose, CA 95113

Honorable Mayor Reed and City Council Members,

As the Evergreen East Hills Vision Strategy approaches its final stages we are compelled to formalize our collective concerns. While we fully understand the City's position in negotiating a funding agreement with the developers, we are extremely disappointed that there is as of yet no written agreement that adequately addresses the needs of all of the affected school districts. Our community's demand for quality schools, along with traffic mitigation, remain the highest priority for any development in Evergreen.

To ensure that appropriate educational facilities are constructed, and to demonstrate your individual and collective commitment to the City's public schools, we are asking that no funding agreement be entered into or entitlements or development permits be approved by the City without the prior review of and comment from our respective school districts, and unless and until acceptable and appropriate mitigation agreements are entered into between the affected school districts and the developers.

Clifton Black, Superintendent
Evergreen School District

George Perez, Superintendent
Mount Pleasant School District

Bob Nunez, Superintendent
East Side Union High School District
